## EMPLOYER SERVICES

### What a Good Recruiter Can Do for You

If your company is expanding in today's tight marketplace, you know that candidates are becoming more difficult to locate and attract. As the baby boomer generation is aging and moving closer to retirement, there are fewer young people to replace them and even fewer technically trained professionals. A good recruiter can become an extension of your Human Resources department to assist you in Talent Acquisition.

The recruiter will take the time to get to know you, understand your needs, and provide you with candidates consistent with your needs. Because of the competitive and diverse nature of the industry we have developed a successful system of Profile Building to better match employers and candidates. The benefit of our system is a dramatic savings of *time* and *expense* to locate, qualify and process quality candidates.

This is what we at Jackie Matchett Personnel like to call a triple win:

- 1. *You win*** because you get a great new employee to fill a critical position in your organization.
- 2. *Our candidate wins*** because they move into an exciting new career opportunity.
- 3. *Jackie Matchett Personnel wins*** because we have helped both sides and developed a relationship to work with you both again in the future.

The attached tools can further tell you about our search process and resources.

Give us a call! We look forward to getting to know you!
